Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates, and they should not be relied upon in making purchasing decisions.
New maintenance dates for SAP Solution Manager!

SAP Solution Manager 7.2 follows SAP Business Suite 7.
  • Mainstream maintenance for SAP Solution Manager 7.2 is now ensured until the end of 2027.
  • Customers who choose the optional extended maintenance for the SAP Business Suite 7 (until the end of 2030) will receive extended maintenance for SAP Solution Manager 7.2 at no additional cost.

Focused Build and Insights are included in the usage rights of SAP Solution Manager since January 2020. They have the same maintenance conditions as SAP Solution Manager.

Focused Run is not affected by the announcement and has its own release and maintenance schedule.
Focused Insights for SAP Solution Manager

Introduction

Focused Insights is a **Focused Solution**: turnkey solution based on SAP Solution Manager.

Focused Insights is an **add-on** installed on top of SAP Solution Manager.

Focused Insights is available to all customers:

Focused Insights for SAP Solution Manager
Product description

Focused Insights for SAP Solution Manager enables customers to build and distribute powerful dashboards that unify, aggregate, and correlate metrics, delivering the most relevant and valuable information to the right people in real time.

Incorporating the best practices and experience gained from numerous custom projects, Focused Insights for SAP Solution Manager offers customers a set of pre-packaged dashboards tailored to their needs. It supports customers with a standard solution that is fully integrated into SAP Solution Manager 7.2 with no additional coding required.

These powerful capabilities make Focused Insights for SAP Solution Manager a key driver for your transition to SAP S/4HANA and the Intelligent Enterprise.
Customers will shape their digital future using Focused Insights for SAP Solution Manager with:

1. **Insights** to automate IT processes, create innovation and improve end-users experience.
2. **Improved** performance of IT departments with new technology models.
3. **Enhanced** lifecycle of SAP applications with analytics and predictive capabilities.
   - Reduce incidents, speed up deployments, optimize resource utilization, and improve application quality with intelligent predictions and recommendations.
   - Deliver high quality solutions faster and more efficiently.
SAP Focused Insights is packaged as **Dashboards Models**. pre-defined template corresponding to a best practice use-case.
Focused Insights for SAP Solution Manager: SP6 Highlights

**Data Access**
- OCC Dashboard
- DP_CRM cumulation / burndown metrics
- DP_ATC: support of DYNAMIC_TABLE Renderer
- New DP_ALERT_SEARCH

**Visualization**
- Tactical Dashboard
  - Support for Web Dispatcher

**Content Creation**
- Strategic Dashboard
  - Automatic group assignment when adding metric from catalog
- Operations Dashboard
  - added filterable column "template" in the catalog tab

**Data Visualization extension**
- OCC Dashboard
  - Time Range limitation
- DYNAMIC_TABLE_RENDERER
  - Paging support
  - Header is frozen when scrolling down the DYNAMIC_TABLE renderer
- SLR Renderer
  - New SLA Types (Direction, Raw, Range)
  - UI improvements
- Operations Dashboard
  - Display grey alerts
  - URL parameter `font=extend` to display the tiles text in two lines

**Faster Content creation**
- OCC Dashboard
  - Time Range limitation
- DYNAMIC_TABLE_RENDERER
  - Paging support
  - Header is frozen when scrolling down the DYNAMIC_TABLE renderer
- SLR Renderer
  - New SLA Types (Direction, Raw, Range)
  - UI improvements
- Operations Dashboard
  - Display grey alerts
  - URL parameter `font=extend` to display the tiles text in two lines

**API**
- API HUB publication
Project Management charts

**New cumulation / burndown metrics for the DP_CRM**

CRM documents are aggregated to derive accumulation or burn-down metrics.
## Control your Custom Code

**DP_ATC support of DYNAMIC_TABLE Renderer**

### Jump-in to Dynamic Table with Filter values to get detailed information on ABAP objects for ATC results

**Control the Status of your Custom Code**
