SAP Enterprise Support – Next-Generation Value Maps

SAP Enterprise Support Value Maps – an empowerment and support program, which provides direct access to SAP experts, interactive social collaboration forums, acceleration of learning and prescriptive guidance, designed to help you in adopting intelligent technologies, manage hybrid landscapes and gain agility to focus your resources on innovation. Value maps guide you through the knowledge, skills, and services needed to address your business challenges, enabling your company to lead in the experience economy.

Prescriptive Approach
Structured content enables guidance, simplification, and acceleration of support offerings consumption across the whole lifecycle.

Empowerment
New interactive learning formats and integrated tools – including gamification, social media-based interactions, and progress tracking provide fast and engaging empowerment.

Social Collaboration
Social learning forums allows users to get guidance and exchange ideas, skills, and best practices with SAP Experts and their peers.

Expert Access
Expert-led sessions and collaboration give users a direct channel to proven and relevant advice, best practices, business insight, and technology know-how.

Benefits of Utilizing SAP Learning Hub
- All value maps, one platform
- Learning new skills 24x7
- Embrace innovation adoption and digital transformation
- Individualized, prescriptive learning journeys
- Record of learning accomplishments
- E2E value maps support and functional experts
- Interactive social support
