Including 25 languages
Languages for which at least one product of the SAP Business Suite is supported, which includes continuous support (maintenance and subsequent releases) through standard delivery channels. This excludes:

1. Farsi (Persian language) which is only available for a specific release and support package level, see SAP Note SAP Note 981731 for details,
2. Indonesian (Bahasa Indonesia) and Malay (Bahasa Malaysia) which are only supported for specific T&P or Cloud products.

** Other language variants are also supported e.g. for Cloud, Analytics or SAP Business One.

Legend of the map:
- Local Versions (blue) where at least one product of the SAP Business Suite is supported in at least one of the official languages.

Languages in total – i.e. for ALL localized solutions

- (*): 59 languages
- (+): 39 languages

Remarks: *Languages for which at least one product of the SAP Business Suite is supported, which includes continuous support (maintenance and subsequent releases) through standard delivery channels. This excludes: (1) Farsi (Persian language) which is only available for a specific release and support package level, see SAP Note SAP Note 981731 for details, (2) Indonesian (Bahasa Indonesia) and Malay (Bahasa Malaysia) which are only supported for specific T&P or Cloud products. ** Other language variants are also supported e.g. for Cloud, Analytics or SAP Business One. Legend of the map: Local Versions (blue) where at least one product of the SAP Business Suite is supported in at least one of the official languages.

**SAP and Partner Local Versions**

(*) The information about SAP Partner Local Versions is provided for informational purposes only, without representation or warranty of any kind, e.g. completeness, functionality or actuality. SAP or its affiliated companies shall not be liable for these SAP Partner solutions.

(**) For Denmark PA-part is covered by SAP standard.

(***) The information about SAP Partner Local Versions is provided for informational purposes only, without representation or warranty of any kind, e.g. completeness, functionality or actuality. SAP or its affiliated companies shall not be liable for these SAP Partner solutions.
SAP Business One (9.3)
SAP Supported Local Versions

49 Local Versions

(*) Remark:
SAP Business One is used in 170 Local Versions, either with an SAP localization, localization of other Local Versions, own customization, or SAP Partner solution.
A convenient option to make additional languages available is using a partner solution (for some Local Versions bundled with functional add-ons) or to define customer specific UI terms using the Custom Language Tool as detailed in SAP Note 1757764. Malaysia, India, Indonesia, Philippines, Singapore and South Africa use English, Luxembourg uses French or German. Others use local languages.
SAP Business ByDesign: SAP Supported Country Versions

65 (*) countries

Further details at the localization capabilities sap.com page

Remarks: (*) SAP’s pre-localized countries can be scoped and in which SAP offers partial localization features. The content delivered differs for each country. For more information, check content in our blog

(**) SAP Business ByDesign Partner localization includes partner solution and SAP pre-localized countries. More information in our blog
Remarks: (*) Controlled availability. (**) The SAP Translation Hub can be enabled to leverage translations via the Language Adaptation Tool and supports the listed target languages, amongst others (check all supported languages from source language “English (United States)” by “Translation Provider SAP Machine Translation”). Quality score from translation provider ‘SAP Machine Translation’ is set to a fix value 25% to indicate that all machine translation proposals need to be reviewed by language experts. If you need support to review the translation proposals from SAP Translation Hub, you can contact the SAP Language Service Partners (see general description of their services and a list of those partners).
