SAP Local Versions

43 Local Versions

Including 25 languages
Remarks: *Languages for which at least one product of the SAP Business Suite is supported, which includes continuous support (maintenance and subsequent releases) through standard delivery channels. This excludes: (1) Farsi (Persian language) which is only available for a specific release and support package level, see SAP Note SAP 981731 for details, (2) Indonesian (Bahasa Indonesia) and Malay (Bahasa Malaysia) which are only supported for specific T&P or Cloud products. ** Other language variants are also supported e. g. for Cloud, Analytics or SAP Business One. Legend of the map: Local Versions (blue) where at least one product of the SAP Business Suite is supported in at least one of the official languages.
SAP Simple Finance *(final delivery will be version 3.0)*

(*Remark: SAP Business One is used in 170 Local Versions, either with an SAP localization, localization of other Local Versions, own customization, or SAP Partner solution.)
SAP Business One (9.3)
SAP Supported Languages

28 languages

(*) Remarks
A convenient option to make additional languages available is using a partner solution (for some Local Versions bundled with functional add-ons) or to define customer specific UI terms using the Custom Language Tool as detailed in SAP Note 1757764. Malaysia, India, Indonesia, Philippines, Singapore and South Africa use English, Luxembourg uses French or German. Others use local languages.
SAP Business ByDesign
SAP Supported Country Versions

57 (*) countries

See also the capabilities page: https://www.sap.com/products/business-bydesign/features.html#globalization

Remarks: (*) SAP’s pre-localized countries can be scoped and in which SAP offers partial localization features. The content delivered differs for each country. For more information, check content in our blog
(**) SAP Business ByDesign Partner localization includes partner solution and SAP pre-localized countries. More information in our blog
SAP Business ByDesign

SAP Supported Languages

41 (*) languages

Remarks: (*) Planned for 2nd half of the year. (**)The SAP Translation Hub can be enabled to leverage translations via the Language Adaptation Tool and supports the listed target languages, amongst others (check all supported languages from source language “English (United States)” by “Translation Provider SAP Machine Translation”). Quality score from translation provider ‘SAP Machine Translation’ is set to a fix value 25% to indicate that all machine translation proposals need to be reviewed by language experts. If you need support to review the translation proposals from SAP Translation Hub, you can contact the SAP Language Service Partners (see general description of their services and a list of those partners).
