Release Availability Documentation

Available Software Releases and Required Base Software for the repeatable custom solution SAP Screen Personas

This document lists the currently available versions of the SAP Screen Personas software and, for each version, the base software required to install and use SAP Screen Personas. In addition, the table lists the different languages available for each version.

This document can be considered part of the available documentation for each version of the SAP Screen Personas software.

</table>

¹ The installation notes contain additional information about the installation prerequisites.

² SAP Screen Personas requires Microsoft Silverlight 5+ on client side. Only browsers and platforms supporting Microsoft Silverlight are supported by SAP Screen Personas.

³ SAP Screen Personas supports transactions supported by SAP WebGUI for HTML.

*SAP Kernel 7.21 is required on any target against which SAP Screen Personas shall be connected to.
